Hiring Manager

Dear Mr/Ms. Hiring Manager

I am pleased to be applying for the web application Developer position at your organization. My extensive experience with designing and developing websites using JavaScript, React js, Laravel and so on matches well with your requirements. In addition, my background with working in large development teams has given me the skills to adjust to the changing dynamics and processes of those environments while meeting scheduled milestones and deliverables.

In my present experience at Techend limited, I have developed several but few web-based applications , currently live right now is the Sessis corp web application "www.Sessiscorp.com" and another is the paysmosmo e commerce web application I was involved in the design and development process for these applications, and I managed enhancement requests after each rollout, live on the web "www.paysmosmo.com" and more projects to present.

I am a proven team player, which is another important requirement for this position. Techend inc best and committed intern award winner, also possesses reliability, good communication, commitment, adaptability, and going above and beyond what is asked as a characteristic. Management also recognized my accomplishments in meeting project deliverable deadlines over 99% of the time, exceeding expectations by 5%.

Thank you for taking the time to review my credentials and accomplishments. I am very passionate about being a competent and contributing team player, and I hope to have the opportunity to discuss my examples in greater detail with you. I look forward to answering your questions and learning more about this position and your development teams.

Sincerely,

Ojo Solomon ayodele
